FARMERS AND STOCK RAISERS, I of r on a Con and Cob Mail unsurpassed in the Union and whice cannot be superceded by pass or future inventions. It is the very Mill which every Farmer and Stock maiser should have, it will crush from 8 to 10 bushels Corn and Cob per hour, with one horse, is easily fitted up and managed, weighs 340 hs., and as all contact of the grinding surfaces is prevented, will last any farmer an or-

density lifetime. I speak thus of its durability because the same principle has been fairly tested in the old Bark Mill Who is it that would A MILL ON TRIAL for one wouth, and of it don't give complete satisfaction, to return n? If there be any man thus disposed, let him now speak. Satisfaction is warranted in every case, or the money will be refunded. This Crusber can be attached to horse, water or steam power, which renders it the most convenient hill south of Steem's and Dixon's line. All other Crushers how in the south require too much power,
